Summary

A look at the budget requirements for Recreation & Amenities Committee for 2024-2025

Detail

The Recreation & Amenities committee is invited to consider predicted income and expenditure for the annual budget for 2024-2025

The attached spreadsheet shows:

- Actual Figures from 2022-2023
- Budget for 2022-2024
- Actual net Apr to Sept 2023
- Estimated Oct to March 2024
- Total Estimate for 2023-2024
- 2024-25 Budget Forecast
- 2025-26 Forecast

The budget shows the details of each budget heading and what the money is spent on. Each budget heading has been adjusted according to annual projected spending.

Current research suggests that the cost of utilities (electricity and gas) won't rise as sharply as it has over the past year. A 20% increase has been added to electricity and gas budgets for the next year.

Repair and maintenance budget headings have been increased. This is to reflect a combination of rising costs for repair and maintenance, plus the need to maintain NTC's buildings to a safe and acceptable standard. NTC's buildings are important community assets, used by community groups, individuals, small businesses and support services. Investing in these assets can bring larger benefits to the town and help residents and small enterprises flourish. For example, since the Main Hall in the Town Hall has been redecorated, there are more bookings for family parties, training days, theatre and music classes. Investment in a new kitchen will further increase the community facilities on offer just in this one building.

The Recreation and Amenities budget presented here is still in draft form, and some predictions may be adjusted before the full annual budget is presented to Council for debate at the Special Budget meeting on Tuesday 28th November.

If you have any questions, please ask the Clerk for more details and they will be brought to the meeting.
